

# Investment Fund Overview

March 31, 2026 (updated quarterly)

## Options

You get to choose how your health reimbursement arrangement (HRA) is invested. Many investment advisors recommend using pre-mixed portfolios like those under **Option A**. A pre-mix is great if you want a single portfolio with a mix of stocks and bonds chosen and managed for you by professionals. If you'd rather pick your own funds, look at **Option B**. For more information, including our **Choosing Your Investment Allocation** brochure and links to fund fact sheets and prospectuses, go to [veba.org](http://veba.org) and click **Investment Options**.

## Making a Change

To review or change your investment selection, log in at [veba.org](http://veba.org) and click **Investments**. You can make changes once per calendar month. You should consult with a professional financial advisor before making investment decisions. VEBA Trust's Board of Trustees and its agents don't give investment advice.

## Expenses and Fees

Returns are net of **portfolio/fund operating expenses**. These expenses are deducted from portfolio/fund assets. They include management fees, distribution (12b-1) fees, and other expenses. Returns have not been adjusted to reflect the VEBA Plan's asset-based **plan administrative fee**. This annualized fee averages about 1.00%.<sup>1</sup>

<sup>1</sup> The annualized asset-based fee may be adjusted up or down periodically to cover plan operating expenses. Plan operating expenses vary from month to month and include claims processing, customer service, account administration, printing, postage, legal, consulting, local servicing, auditing, etc. To cover these costs, a monthly per participant fee of \$1.50 (if claims-eligible) or \$0.75 (if not claims-eligible), plus the annualized asset-based fee, is charged to your account. The monthly fee is waived if your account balance is more than \$5,000. In addition, a 0.25% asset-based fee discount applies to any portion of your account balance in excess of \$10,000. Your account value changes daily based on activity, which may include investment earnings and losses, contribution and claims activity, and assessment of the asset-based fee. To the extent permitted or required by law, certain fees, assessments, or other amounts payable to the federal government may also be deducted from your account. It is possible that fees could exceed your investment return. <sup>2</sup> Each VEBA pre-mixed portfolio uses a different combination of these four mutual funds: Fidelity US Bond Index, Fidelity International Bond Index, Fidelity Total Market Index, and Fidelity Total International Stock Index. Performance data prior to August 2020 is hypothetical and based on the allocation and performance of the underlying mutual funds.

Investment fund information is obtained from sources believed to be reliable. However, such information may later be changed due to circumstances beyond our knowledge or control; therefore, its accuracy cannot be guaranteed. Returns are net of portfolio/fund operating expenses.

Generally, investments with higher potential returns involve greater risk and more volatility. Past performance does not guarantee future results. Funds are not FDIC insured, are not guaranteed by a bank, and may lose value. You should carefully consider an investment fund's objectives, risks, fees, charges, and expenses before investing. This Investment Fund Overview is updated quarterly. Additional information is contained in the prospectus and/or fund fact sheet for each option.
